

Kerby's Garden Design

Thank you for taking the first step toward a more beautiful garden! If you haven't already scheduled your 60 minute design consultation, call us at 813-685-3265. The fee for the garden design service is the purchase of a \$200 gift card to use toward plants. Purchase the gift card by calling the nursery or stopping by before your appointment time.

Consultation Date: _____ Time: _____

Before your appointment, please use this worksheet to gather some preliminary information to help us design your garden area. Please bring the completed worksheet along with rough dimensions of the area in for your consultation and e-mail a photo of the area to mkerby@kerbysnursery.com.

Also note that this design service is intended to help you with a single area of your landscape (such as the front of the house, around a pool, etc.) and is not a full-scale landscape design service. It's really intended for people who just need a little extra help selecting plant material. If you are looking for large-scale landscape design and installation services, please ask and we may be able to refer you to someone who provides that service.

Describe the area that you would like to enhance or design (such as frontyard, backyard, pool area, etc.):

What goals are you trying to accomplish with this design (creating privacy, shade, etc.)?

How many hours of sun per day does the area receive?

Is it primarily morning, afternoon or evening sun?

What direction does the front of the house face (North, East, South, West)?

Does the area have good drainage? Is it usually wet or dry?

Do you have an irrigation system?

What is the soil condition (sandy or clay)?

How many hours per week do you spend in your garden (weeding, pruning, dead-heading)?

Do you have any color preferences?

What is the color of your house?

Are there any additional features you'd like included (container gardens, hanging baskets, trellises etc.)?

Your garden is an investment that you will enjoy for years to come. Visiting Kerby's Nursery prior to your consultation can help you find the look you want to achieve. If you see plants that you like, list them below. Also look around your neighborhood and make note of any trees, shrubs, vines, groundcovers or flowers that appeal to you. If there are particular plants that you dislike or would like to avoid, please make a note of them as well.

Is there any other information that will help us design your garden?
